## THE SECRET TO NATURAL, LONG-LASTING RADIANCE

Forget what you know about typical injectables. Sculptra is in a class of its own—a unique, FDA-approved treatment that works as a biostimulator.

**Think of it as awakening your skin's own regenerative power.** Using poly-L-lactic acid (PLLA), Sculptra partners with your body to kickstart its own natural collagen production.

Instead of just filling lines, **it helps rebuild your skin's underlying structure**, gradually restoring volume and creating a firmness and luminosity that is 100% you.

# Is a Provider-Led Sculptra Plan Right for You?

---

## Benefits

At Aetheria, your treatment is a partnership. A personalized Sculptra plan may be the perfect way to achieve your goals if you wish to:

- ✓ Enhance your natural contours and restore facial balance.
- ✓ Soften facial lines and folds like smile lines and marionette lines.
- ✓ Improve your skin's firmness, texture, and overall glow.
- ✓ Invest in a long-term solution for natural-looking rejuvenation.

## Who should wait?

For your safety, Sculptra is not recommended if you are pregnant, breastfeeding, or have certain autoimmune conditions. We will discuss your full health history during your one-on-one consultation.

**Sound like the solution you've been looking for? Your personalized consultation is the next step.**

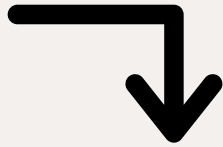

# Your Journey

01

## The Consultation

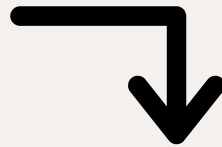

Your journey begins with a comprehensive, one-on-one consultation with our co-founder and Board-Certified Physician Assistant, Melissa. She will listen carefully to your goals to design your bespoke roadmap to rejuvenation.

02

## The Treatment

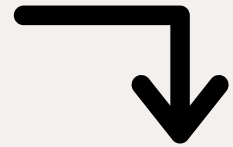

Your treatment will involve a series of small, skillfully placed injections. We use a topical anesthetic to ensure your comfort throughout the process, which typically lasts about 30-45 minutes.

03

## The Aftercare

Melissa will provide a simple aftercare plan. This includes the famous “Rule of 5s”: gently massaging the treated area for 5 minutes, 5 times a day, for 5 days to ensure beautiful, even results.

04

## Results

The most exciting part is watching your own radiance emerge. Over the next few months, as your collagen rebuilds, you will see the subtle, gradual, and stunning improvement in your skin’s vitality.

**Ready to begin your roadmap to radiance? Connect with us today to design your roadmap.**

# Frequently Asked Questions

---

## How many treatments will I need?

While every plan is unique, most patients achieve their desired results with a series of 2-3 treatments, spaced about 4-6 weeks apart.

## Are there any side effects?

As with any injectable treatment, you may experience temporary swelling, tenderness, or bruising at the injection sites. These typically resolve within a few days.

## How long do the results last?

Your radiant results are here to stay. The effects of Sculptra are incredibly long-lasting and can be maintained for up to two years, making it a powerful part of your long-term wellness roadmap.

## Is it natural-looking?

Because Sculptra works with your own body, the results are famously natural. You won't look "done"—you'll simply look refreshed, rested, and like the best version of yourself.

# Your Roadmap Begins with Our Provider, Melissa

Melissa Kolowitz, PA-C  
Co-Founder

---

At Aetheria Aesthetics and Wellness, you are not just another appointment; **you are our partner.** We move beyond the transactional feel of simple “injectors” to offer a truly consultative experience.

With an extensive background in surgery, women’s health, and medical aesthetics, our co-founder Melissa Kolowitz’s philosophy is rooted in a **holistic approach.**

Melissa combines an artistic eye with a deep understanding of facial anatomy, listening carefully to your goals to build trust and **deliver results that are both beautiful and uniquely you.**

Your journey begins with a conversation—see the next page to schedule yours.
